

Geriatric Interprofessional Interorganizational Toolkit

Driving and Dementia

Driving and Dementia

Acknowledgements

The following community organizations and individuals were consulted during the development of the GiiC Driving and Dementia toolkit.

- Dr. Bill Dalziel, Chief, Regional Assessment Program of Eastern Ontario
- Dr. Frank Molnar, Regional Geriatric Program of Eastern Ontario
- Marg Eisner and The Champlain Dementia Network
- Marion Agnew, Regional Geriatric Program of Eastern Ontario

I would like to thank The Champlain Dementia Network for allowing the GiiC use of the Dementia Toolbox - Education Resources for Family Physicians as a framework for the Introduction to Driving Issues and Driving Assessment portion of this toolkit.

I would especially like to thank Dr. Dalziel for generously allowing us to include his Dementia and Driving Screening Tool and Summary Sheet in the toolkit. In addition, Dr. Dalziel provided direction, common sense advice, and a wealth of information for use in the toolkit.

Finally, I would like to thank Marion Agnew for tirelessly formatting, proofreading and guiding the final product development.
